

# Skylight for Conservation Release Notes

## March 2021

---

*Next generation insights for marine protection.*

### Summary

Skylight External API.....	2
Improved Access to Saved Alerts .....	2
More Differentiated Vessel Tracks in Standard Rendezvous Events .....	3

## Skylight External API

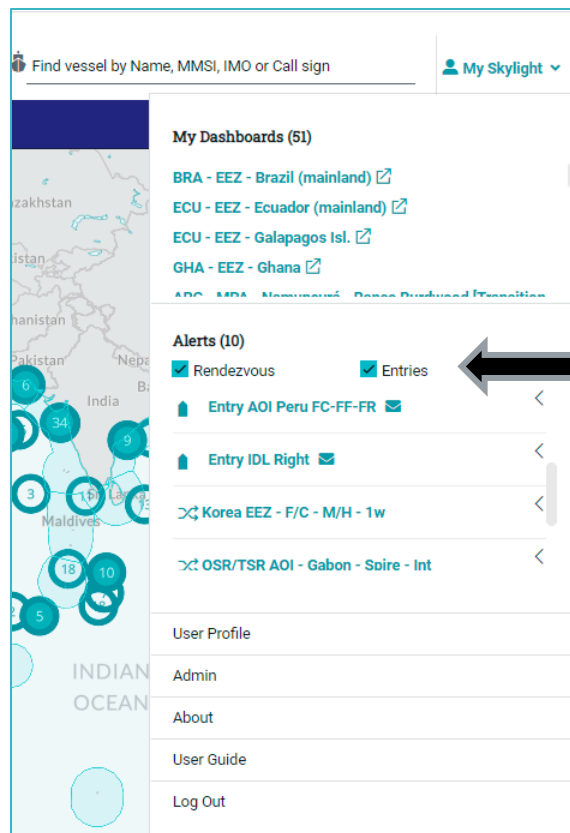

We now offer an external Application Programming Interface (API) to integrate Skylight with your in-house applications. For more information please contact us at [support@skylight.global](mailto:support@skylight.global).

## Improved Access to Saved Alerts

You can now see your Rendezvous and Entry saved alerts under “My Skylight” regardless of which map you are in.

Clicking the name of the saved alert will automatically takes you to the map where the alerts belong to.

You can use the checkbox to filter your saved alerts if you would like to view just Rendezvous or Entry-related alerts.

## More Differentiated Vessel Tracks in Standard Rendezvous Events
